FIRST ASSISTANT SECRETARY
22 DEC 1954
AGRICULTURE DEPARTMENT

153786

No. 28281-V.1/53-5 dated 17th December 1954.

Sir,

Sub:- Education--Fisheries--Higher Elementary School at Kizhur in South Kanara District--Construction of additional building--expenditure sanction--request of.

The Fisheries School at Kizhur in South Kanara District is a permanent one and is housed in two pucca Government buildings. The accommodation available in these two buildings is only for 129 students. VIth and VIIth standards were started in June 1953 and June 1954 respectively and VIIIth standard is to be opened in June 1955 for which proposals have already been submitted to Government in this office letter No. 72366-X.1/54-1, dated 28-9-54 as part II scheme for 1955-56. The school has, at present, a strength of 209 and great difficulty is being experienced for want of sufficient accommodation. When VIIIth standard is opened in June 1955 the strength is expected to reach about 250. Hence another building with about 125 school places is quite essential for the school. The local fishermen were requested by the Assistant Director, Mangalore to construct a building as per this Department's plan with 125 school places and hand it over to the Department on condition that they would be given the rent fixed by the Public Works Department. The building with 125 school places is estimated to cost a sum of Rs. 12,000/-. The local fishermen are agreeable to the above suggestion provided they are given (1) the site free of cost and (2) a loan of Rs. 6000/- to be adjusted from the rent. As there is no registered fishermen sangam or committee there, it may not be possible either to give the site free of cost or to give a loan of Rs. 6000/- and recover it from the rent. The Assistant Director, therefore, suggests that the building may be constructed at Government cost. Further the Kizhur Fishermen Committee, Malpad in their petition dated 21-5-54 to the Minister for Agriculture requested that additional building for the Fisheries School at Kizhur may be constructed at Government cost. As per my report dated 20-7-54 the Government in their letter No. 9635-S.II/54-4, dated 21-10-54 have intimated the Secretary Fishermen Unlimited Committee that the request is being examined by the Government.

An estimate for the construction of a pucca building at a cost of Rs. 12,000/- to provide additional accommodation for 125 children for the Kizhur Higher Elementary School has been prepared by the Fisheries Engineering Supervisor. The estimate and plan have been scrutinised by the Executive Engineer, South Kanara Division and necessary corrections made by him. The estimate and plan are submitted herewith for the approval of Government. The present school buildings which occupy an area of about 2,000 sq.ft. are in a site of 14,400 sq. ft. The proposed additional building will require about 1,600 sq. ft. A site plan is also enclosed herewith. Experience in the past has proved that kutcha or semi pucca buildings for the Fisheries Schools on the sandy beach of west coast are not safe and lasting as the rainfall there is about 140 inches a year. I, therefore, request that the Government may be pleased to accord sanction to the incurring of an expenditure

p.t.o.

of Rs. 12,000/- (Rupees Twelve thousand only) towards the construction of a pucca building with 125 school places for the Fisheries Higher Elementary School, Kizhur in South Kanara District. As the cost of building exceeds Rs. 5,000/- the construction work may be entrusted to the Public Works Department and the expenditure debited to the Public Works Department budget. The Executive Engineer, South Kanara division has sent a bill for Rs. 120/- being one per cent centage charge for the scrutiny of the estimate. This may also be sanctioned.

X. X. Peter Devadas.
For Director of Industries and Commerce.

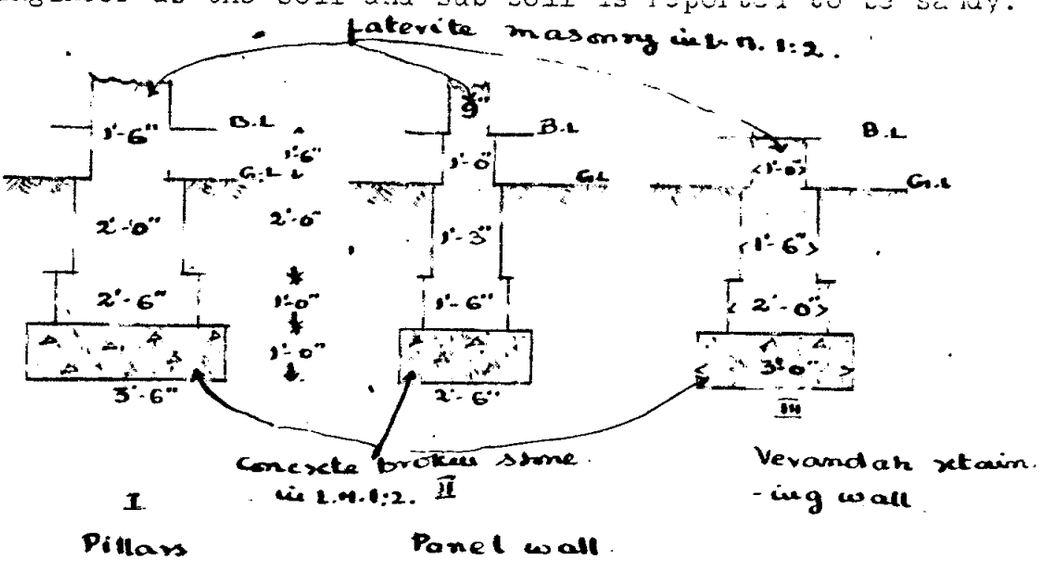
ENCLO:

TECHNICAL NOTE TO THE CHIEF ENGINEER'S(GENERAL).

LETTER NO. 1124 Wks(3)/55-1,dt.1--2-1955.

The following remarks are offered on the plans and estimate for the construction of an additional building for Government Fisheries School at Kizhur.

1. The sections of foundations shown below may be adopted instead of the sections now proposed by the Executive Engineer as the soil and sub soil is reported to be sandy.



2. Damp proof course may be with cement mortar 1:3, ¾" thick in stead of cement mortar 1:4, 1/2" thick.

3. Plastering:- The walls may be finished with cement mortar 1:3, 3/4" thick as the building is to be constructed in a place of heavy rain-fall.

4. Wood work may be painted with 2 coats of grey paint.

5. L.S.Provisions are now made for filling in basement, partitions and black boards, etc. ~~with~~ the estimate.

6. The amount of estimate now works out Rs.11,000/- inclusive of 10% centage charges of Rs.100/-.

Sub:- Buildings - Fisheries - Construction of a pucca building to house the Fisheries School at Dhizhur in S. Kanara Dt. - Proposals.

PP 1-3 cy — Ref:- From the Director no. 28281 x1 /53-5 dt 17. 12-54

PP 5 7 cy — From the C.E.P. W/Thrm 1124 WKS(3)/55 dt 1. 2.55.

y on PP 1-3 cy ✓ — 1. The file deals with the proposal of the Director of Industries & Commerce for the construction of a pucca building with 125 school places for the Fisheries Higher Elementary School at Dhizhur in S. Kanara.

2. The proposal of the Director is on PP 1-3 cy

Para 1 on P 1 cy ✓ — The Fisheries School at Dhizhur is a permanent School and is housed in two Pucca East buildings - The School has Seven Standards and a strength of 209 pupils at present. The existing buildings can accommodate only 129 Students and therefore much difficulty is being experienced for want of sufficient accommodation. The Director has further submitted proposals separately for the opening of Standard VIII in the School in June 1955 for the Consideration of the Govt as a Part II Scheme. The proposal has already been approved by the S.F.C. The Director has stated that when Standard VIII is opened in the School in June 1955 the strength of the School would come to about 250 and that therefore the construction of another building with 125 School places is quite essential. The

Para 1 on P 1 cy ✓

✓ — local fishermen are agreeable for the construction of a building to the School if they are given a site free of cost and a loan of Rs 6000/. But the Director

✓ — has stated that the building may be constructed at East Costing by the fishermen Sangam in the locality is

P.T.O.

not a registered one. Further a fishermen Committee at Thiruvar have already represented the Govt for the Construction of additional building to the School at Govt Cost.

3. The Fisheries Engineering Supervisor has prepared an estimate for the construction of a pucca additional building at a cost of Rs 12,000/-. The Director has submitted the estimate for the approval of Govt. He has stated that kutcha or semi pucca building for the School will not be safe and lasting as the rainfall in the locality is about 140 inches a year. He has therefore requested the Govt to accord sanction to the incurring of an expenditure of Rs 12,000/- towards the Construction of a pucca building with 125 School places for the Fisheries School at Thiruvar. He has also requested that the Construction work may be entrusted to the P.W.D and the expenditure debited to the P.W.D Budget. He has further stated that the S.E. S. Kanara division who has scrutinised the estimate has sent a bill for Rs 120/- being one percent Centage Charge and this may also be sanctioned.

4. The C.E, P.W.D has been Consulted on the proposals of the Director. The C.E has furnished a Technical note on the plans and estimates submitted by the Director. (vide P7 cy). He has suggested certain alterations on the plans and estimates. According to the estimate of the C.E, the amount would come to Rs 11,000/- inclusive of 1% Centage Charge of Rs 109/-.

P10

5. It is now for orders whether the proposal of the Director will be accepted and if so an expenditure of Rs 11,000/ may be sanctioned towards the construction of the building. The proposals of the Director to entrust the work to P.W.D. and to debit the expenditure to the P.W.D. Budget may also be accepted.

6. P.W.D. and Finance may see (illegible)

ASST. SECRETARY TO GOVERNMENT
28 FEB 1955
PUBLIC WORKS DEPARTMENT

P.W. (C,)

Note from P.I. and may be passed. In view of the prevailing financial stringency and the high cost of labour and material, the present policy of Govt. is to accord sanction only to such building schemes as are immediately and imperatively essential for carrying on the Administration. Other schemes though desirable should be deferred to better times.

2/ The present proposal is estimated to cost Rs 11,000/-. Unless this scheme satisfies the above criterion, it will have to be deferred. ~~(illegible)~~

57

The C.E who was consulted has technically approved the estimate, revising the amount to 11,000/- inclusive of contract charges of 1% for the screen length of the estimate by the PWD which was prepared by Fisheries Engineering Superintendent. The D.F.O.C has suggested that the expenditure may be debited to '50. Civil works;' PWD undertaking the construction. The C.E. seems to be agreeable to the suggestion, as he has not made any specific comments on this points in his letter at-p 5 C/F. If the proposal is to be pressed for sanction now, orders in circulation incidental thereto (W) will have to be taken. With these remarks the file may be passed on to Finance.

strength of the school is reported to be 209. It is stated that the school is housed with great difficulty in two Govt. buildings which are capable of accommodating only 129 students. The proposal to open VIII Standard in the school has been approved as a Part II Scheme for 1955-56 vide item 24 on p.124 of the Budget Memorandum for 1955-56. The opening of the additional class is reported to bring the strength of the school to about 250. The D.I. & C. has also stated that a permanent building for the school is absolutely essential as Kutcha or semi pucca buildings are neither lasting nor safe in view of the sandy beaches of the West Coast and the heavy rain fall there. The proposal which is supported by Agri. may be agreed to in this Dept.

2. Though new schemes like this costing more than Rs 10,000/- should ordinarily be brought forward as Part II Schemes, this Dept. may agree to ~~its~~ the scheme being sanctioned for execution in 1955-56, in view of the necessity for the additional building as explained above. Steps will have to be taken to provide the necessary funds in 1955-56.

NOTE FOR CIRCULATION.

1. The file relates to the proposal for the construction of a pucca building for the Fisheries Higher Elementary School at Kozhur in South Kanara District at a cost of Rs.11,000/-.

2. The Fisheries School at Kozhur is a permanent School and is now housed in two pucca Govt. buildings. The present buildings could accommodate only 129 pupils. The School has seven standards and a strength of 209 pupils at present. The proposal for the opening of Standard VIII in the school has been treated as a Part II Scheme, and ~~it will be sanctioned shortly~~ orders will issue sanctioning the proposal. When Standard VIII is opened in the school in June 1955 the strength of the school would come to about 250. The D.I. & C. has stated that with the increased strength in the school there will be much difficulty for accommodation, and that therefore the construction of another building with 125 school places is quite essential. He has stated that Kutcha or semi-pucca building will not be safe and lasting as the rainfall in the locality is about 140 inches a year. He has submitted an estimate for the construction of a pucca additional building at a cost of Rs.12,000/- and requested that the construction work may be entrusted to the P.W.D. and the expenditure debited to the P.W.D. budget. He has stated that the Executive Engineer, South Kanara Division who has scrutinised the estimate has sent a bill for Rs.120/-, being one percent centage charge, and tha this may also be sanctioned. The C.E., P.W.D. who was consulted in the matter, has suggested certain alterations in the estimates submitted by the D.I. & C According to the estimates of the C.E. the cost of construction of the building would come to Rs.11,000/ inclusive of 1% centage charge of Rs.109/-.

3. This Deptt. propose to accept the proposal of the D.I. & C. and to sanction an expenditure of Rs.11,000/- (as estimated by the C.E.) towards the construction of the building for the Fisheries School at Kizhavur in S. Kanara Dist. by the P.W.D. during 1955-56. P.W.D. and Finance Deptts. have agreed to the proposal of this Deptt. 1A

4. The case may be circulated to M (A), M (W) and M (F. & E.) for orders on the proposals at 'A' above.
